

ADVANCED DIPLOMA IN FinTech, Banking & AI (ADFBA)

Industry Focused 1 Year Hybrid Programme
offered for students and working professionals

Advanced Diploma in FinTech, Banking & AI

AI-enabled industry aligned BFSI program built for students/working professionals

Advanced Diploma in FinTech, Banking & AI (ADFBA) is a structured 12-month programme designed to run alongside your busy college/office schedule. Every element - live weekday classes, saturday industry sessions, sunday assessments, and 1:1 mentorship, monthly capstone projects- is engineered to build the FinTech fluency, banking domain depth, data and GenAI literacy that BFSI employers actually hire for.

- Designed for Students/ Working Professionals
- Deep BFSI Domain Focus
- AI-Integrated Curriculum
- Placement & Internship Support
- Industry Mentor from Day 1
- RUBRIC Assessment Model

6-Bimester Curriculum

Every 2 months builds new industry skills, ends with a capstone project, and awards a coveted certificate. The bimester rhythm keeps you industry-connected, not academically isolated.
